

# DAWN TECH PTE LTD

## Declaration Letter

We, **DAWN TECH PTE. LTD.**, hereby declare and clarify as follows with respect to the misrepresentation made by Azure Sur-Tech Co., Ltd. in recent days claiming that we had licensed of our technology:

1. Although we entered into the “TECHNOLOGY TRANSFER AGREEMENT” (the “Agreement”) with Azure Sur-Tech Co., Ltd. (“Azure Sur”) on September 2, 2019, and agreed that we would grant license to Azure Sur for the use of our Parylene Coating technology (“Licensed Technology”), however, **Azure Sur has not complied with the provisions of the Agreement and has failed to pay the license fees and royalties** to us as agreed. Furthermore, Azure Sur has refused to perform such obligation stipulated in the Agreement even after notice from us urging Azure Sur to correct the breach. Such delayed payment has constituted the cause for the termination of the Agreement. Therefore, we sent a notice to Azure Sur on January 28, 2021 terminating the Agreement from the date when the notice is delivered to Azure Sur. After the termination of the Agreement, **Azure Sur shall no longer use the Licensed Technology** in any way or form.
2. However, despite the fact that the **Agreement has been terminated**, and Azure Sur is no longer entitled to use, or sublicense to others, to use the Licensed Technology, Azure Sur continues to claim that it is **a legitimate licensee of the Licensed Technology and falsely claims that it has the right to use the Licensed Technology, or even the right to sublicense the Licensed Technology to a third party**. Such behaviors have seriously infringed on our rights and interests. We are currently seeking legal recourse against Azure Sur for the abovementioned behaviors.
3. In order to avoid any third party being involved in infringement disputes arising from mistakenly believing the misrepresentation by Azure Sur, we hereby declare and clarify that **Azure Sur is not a licensee of the Licensed Technology**. We further note that **DAWN HOLDING (TAIWAN) CO., LTD. is the only legitimate licensee of the Licensed Technology in Taiwan** and any third party wishing to use our Licensed Technology should contact DAWN HOLDING (TAIWAN) CO., LTD. accordingly in order to avoid the risk of getting involved in relevant disputes.
